Notes Kate 12_2

SRS:
Add stuff from Quincy's meeting with Kate
User documentation – what will be in it

Default gateways?
- need to know specific banner fields
- how often do we pull? once a day/week/quarter?
- manual pull? 3rd party?
- store stuff locally? not necessarily a good idea
Build our own UI/UX or use Power BI dashboard?
- put it in SRS

Specific zones for banner data
- nothing with student data
- CRN, course description, instructor name, course title, quarter/year,
    - "browse classes" is connected – see what is there
    - just ask what we want once, pick what we need and that's it
    - get that in Friday

Fields:
- Course number
- Course Description
- Class Details
- Prerequisites
- Location/Time/Instructor
- Enrollment/Waitlist
- Corequisites
- Credits
- Instructor
- CRN
- Term
- Delivery
- Seats available/filled
